

Poster Award

the paper entitled

Vector Grating Liquid Crystal Cells with TN and Homogeneous Alignment Fabricated by One-Step Exposure of Photocrosslinkable Polymer Liquid Crystal Films to Non-Orthogonal Elliptical Interference Beam

Authored by

Kotaro Kawai, Tomoyuki Sasaki, Kohei Noda, Nobuhiro Kawatsuki, and Hiroshi Ono

and presented by

Kotaro Kawai (Nagaoka University of Technology)

Received at

The 5th International Symposium on Organic and Inorganic electronic Materials and Related Nanotechnologies (EM-NANO2015)

held at Toki Messe, Niigata Convention Center, Japan (June 16-19, 2015)

On behalf of the Organizing Committee

Keizo Kato

Prof. Keizo Kato

EM-NANO 2015 Conference Chair
